## **Accessibility Plan**

**2017 - 2020**

To be reviewed: March 2020

## **Introduction**

This Accessibility Plan is drawn up in compliance with current legislation and requirements as specified in Schedule 10, relating to Disability, of the Equality Act 2010. School Governors are accountable for ensuring the implementation, review and reporting of progress of the Accessibility Plan over a prescribed period.

The Equality Act 2010 replaced all existing equality legislation, including the Disability Discrimination Act. The effect of the law is the same as in the past, meaning that “schools cannot unlawfully discriminate against pupils because of sex, race, disability, religion or belief and sexual orientation”.

According to the Equality Act 2010 a person has a disability if:

- He or she has a physical or mental impairment, and
- The impairment has a substantial and long-term adverse effect on his or her ability to carry out normal day-to-day activities.

The Accessibility Plan is structured to complement and support the school’s Equality Action Plan and Public Sector Equality Duty, and will similarly be published on the school website.

The Governing Body has had three key duties towards disabled pupils

- not to treat disabled pupils less favourably for a reason related to their disability;
- to make reasonable adjustments for disabled pupils, so that they are not at a substantial disadvantage;
- to plan to increase access to education for disabled pupils.

This plan sets out the proposals of the Governing Body of the school to increase access to education for disabled pupils in the three areas:

- increasing the extent to which disabled pupils can participate in the school curriculum;
- improving the environment of the school to increase the extent to which disabled pupils can Take advantage of education and associated services;
- improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled.

It is a requirement that the school’s accessibility plan is resourced, implemented and reviewed and revised as necessary. Attached is a set of action plans showing how the school will address the priorities identified in the plan.

## **The purpose and direction of the school’s plan: vision and values**

At St Francis C of E Primary School, we are committed to giving all of our children every opportunity to achieve the highest of standards. We do this by Taking account of pupils’ varied life experiences and needs. We offer a broad and balanced curriculum and have high expectations for all children. The achievements, attitudes and well-being of all our children matter. St Francis C of E Primary

School promotes the individuality of all our children, irrespective of ethnicity, attainment, age, disability, gender or background.

Our school aims to be an inclusive school. We actively seek to remove the barriers to learning and participation that can hinder or exclude individual pupils, or groups of pupils. This means that equality of opportunity must be a reality for our children:

- girls and boys;
- minority ethnic and faith groups;
- children who need support to learn English as an additional language;
- children with special educational needs and disabilities;
- gifted and Talented children;
- children who are vulnerable;

We acknowledge that there may be times when this is impossible or inappropriate, despite our wishes or best efforts.

### **Information from pupil data and school audit**

February 2017	school support 45
	SS+ 16
	Statement/EHCP 12

The percentage of SEND pupils is now about 16% of the school population. The school has a significant number of children with ASC amongst the population; nevertheless, the school has a whole range of children of all backgrounds, needs and abilities.

We currently cater for children with common issues such as asthma and eczema, rare syndromes, neurodevelopmental and physical conditions, dyslexia, allergies, heart problems, dyspraxia, BESD, sensory impairments and emotional and behavioural problems.

We visit all children who are new to Foundation Stage 1 or 2 at home so that we are prepared for children when they arrive in school. We liaise closely with previous settings too so that we have a clear picture of children and their needs.

We liaise with parents and professionals involved with the children to ensure we provide the right care for their needs.

### **Views of those consulted during the development of the plan**

The plan was shared with staff, governors at Finance, Staffing and Premises committee and a focus group of parents, when initially constructed. Comments were made about ensuring accessibility extended to parents and the plan has subsequently been amended to ensure that these views are incorporated.

Review of the plan has been carried out with staff and governors.

### **The main priorities in the school's plan**

We take advice on support needed for children with disabilities and work with experts to ensure they have the support necessary **to fully include them in the life of the school.**

The action plan ensures that:

- The school draws on the expertise of external agencies to provide specialist advice and support.
- The SENCOs have an overview of the needs of disabled pupils.
- There are high expectations.
- There is appropriate deployment and training of teaching assistants.
- Successful practice is shared within the school.
- The school works with partner schools.
- Disabled pupils have access to extra-curricular activities.
- Appropriate technology is borrowed or procured for pupils to enable their access to the curriculum as appropriate

### **Arrangements for the admission of disabled pupils**

- See Admissions policy
- It is the parent's responsibility to make contact with the class teacher before admission, or shortly after to allow the school to adequately meet the needs of these children and where appropriate, access additional support, training or resources.

### **Steps taken to prevent disabled pupils from being treated less favorably than other pupils**

- For school trips, the trips organiser ensures that venue and transport are aware of any special needs issues
- Rails installed to reception classroom to ensure mobility issues were addressed
- Towel dispenser height adjusted and step stall introduced in Nursery to address specific needs of pupil
- TA support on trips
- Flooring changed in toilet areas
- Specific activities accessed and learning differentiated
- Specific ICT equipment hired

### **The facilities provided to assist access to the school by disabled pupils**

- The school is a new build, opened in January 2005. Swindon Local Authority insisted that the building exceeds the regulations for ensuring that the building is as accessible as possible to all.

## Parents and Carers

- When drafting the accessibility plan, questionnaires were sent to users of the school including pupils, staff & members of the community.
- Governors who drafted the scheme all either personally have or have a first degree relative with an impairment that is recognised as a disability under the scheme.
- School Development Plan is produced each year with the help of staff, governors and partner organisations such as the church and F.A.I.T.H. Section includes one for SEND.
- SEND Handbook for parents is written
- School policies, including the complaints procedure, are available at the school office and are published on the school website
- Access to Swindon Parent Partnership
- Access to Parent Support Advisor
