

Write some maths word problems using your favourite fairy tale characters. Can you include addition and subtraction problems?

Build a fairy tale castle at home. You could use lego or junk items from around the house or even make a cake in the shape of a castle. Take a photo of your creation to share with the class.

Design a house that you think your favourite fairy tale character would live in. Label the features and tell us why you chose them. E.g. 'A huge wooden door because he is giant'.

Our school value this term is 'Justice'. What do you think this means? How have you treated other people fairly? Can you give some examples?

## Year 1 Homework Spring, term 3 - 2020 Once Upon a Time

Complete 2-3 activities over this half term.  
Only spend 20 mins per week (not including reading and spelling).  
An activity may go over 2 or 3 weeks.

Home work is due in on Monday 10<sup>th</sup> February.

- Don't forget every week to:**
1. Read daily and write this in your reading record.
  2. Practise your spellings.
  3. Practise your maths in your booklets.

Using the tune from a well-known nursery rhyme, change the words to create new song about what happens in your favourite fairy tale. Please send it in via Seesaw or email to the class email address.

Design a wanted poster for a fairy tale villain. Don't forget to use lots of adjectives to describe them.

Draw a map of your route to school. Which local landmarks and roads do you pass on your way? Make sure these are labelled on your map.

Creative spelling: Explore one of the new Phase 5 sounds that we learnt in class last term.

You could show alternative sounds. E.g. 'ea', 'ee' and 'ey'. Can you present them in an interesting way?
