

Individual Information form

Youlbury provides programmes of Outdoor Education that can make a unique and powerful contribution to an individual's education and development. Throughout the course a high priority is placed on health and safety.

In order for medication to be administered to your child during their time at Youlbury, you will need to sign a form of consent. These will be located at the group leader stations on the morning of departure. All medication will be collected at this time and should be named and put into a waterproof bag. Please note, no medication (including cough sweets and travel sickness tablets) can be self-administered by the child.

Please complete this form and return back to your class teacher by Monday 1st April 2019.

Full name		
Emergency contact numbers		
Contact 1:	Contact 2:	Contact 3:
Medical condition, allergies or significant disabilities (e.g. asthma, heart trouble, diabetes, epilepsy, previous injuries etc.) Give details of any medication.
