

There are 3 English based Education City homework activities set

Look in your kitchen cupboards and fridge and find food from the major food groups: Fruit and Vegetables, Starchy foods (rice, pasta, bread, potatoes etc.) dairy products, meat and foods with high fat and sugar content. Make a poster to show what you find.

Investigate the country of India. What facts can you find out about it?

Find out what foods can be grown in the UK and compare to the foods that can be grown in India.

Year 2 Homework

Term 1 - 2019

Let's Go To India

Please remember to complete the following activities weekly:

5x reading recorded in reading record

Weekly Maths facts practise

Practise spelling the common exception words and applying this in sentences

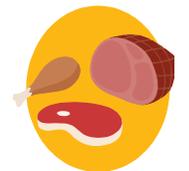

Then complete 4 of these activities over the course of the term. You should spend no longer than 20 minutes per week on an activity. One activity can be completed over several weeks if necessary. Education city can count as 1 homework activity.

Make a bar chart of the places (possibly countries, or areas of this country) that people in your family have visited.

Using the template provided, fill in each section of the Indian flag by writing as many of each type of word as you can in the correct colour.

What rhymes and songs can you find that mention different countries including India or the U.K.?

Compile a food diary over the course of a week. Record everything you eat and drink! Can you use the correct food group names?

There are 3 Maths based Education City homework activities set

Write and illustrate a prayer for what you are thankful for. We will choose some of these to be shared in our next assembly.

Homework sharing will be Thursday 24th October 2019. Children will not need to dress-up.
